TECHNICIAN FRIENDLY

**BRAZE FREE LINE CONNECTORS
& FILTRATION PRODUCTS**

MANUFACTURER OF AWARD-WINNING, OE-APPROVED, SMART SERVICE SOLUTIONS

In 1989 AirSept created the first long-lasting solution to the problem of unwanted mold and mildew odor in mobile air conditioning systems. The product became popular so quickly that by 1991, AirSept began partnering with global OEMs and suppliers to not only market our Cooling Coil Coating, but to also develop other unique new products. Since then, AirSept has developed many innovative products that help professional repair technicians solve tough problems quickly and with confidence that the repair will meet OEM standards and be durable and cost-effective.

WELCOME TO A NEW LINE OF HVAC PRODUCTS

AIRSEPT's diverse product line has been solving real problems and saving technicians time and money in the automotive space for over 30 years. Now it is time to solve HVAC problems and help HVAC technicians save time, money and labor with our line of affordable, award winning products designed specifically to meet the demands of today's HVAC systems.
